

Bienvenue

MIB HYDRO propose you the global solution for hydraulics presses.

MIB HYDRO founding in year 1955, has been designing and manufacturing all types of hydraulics presses ranging from 4 to 6000 tons. With our extensive experience in a variety of fields, we are in a position to meet the most specific needs of our customers.

The pages below do not in any way cover the entire product range. However, they will give you an idea of the presses we make for some of the fields of industry with which we are familiar.

HAVE A GOOD VISIT.
